

Radius Finder

Measure rounded corners and inside cuts to the nearest 1/4 inch.

1

VERIFY SCALE

The bottom ruler must measure exactly 6 inches end to end.

2

ALIGN THE CORNER

Slide your rounded corner under the gauge until straight edges meet the rulers.

3

READ THE ARC

The arc that traces along your rounded edge is your radius.

► COMMON AQUAGRIP RADII

Helm Pads

R 1.00" outside · R 0.564" groove

Coaming Bolsters

R 0.75" standard

Cooler Tops

Match your cooler model

NOT SURE?

Photo it & text 203-580-8080

STOP — CHECK YOUR PRINT FIRST

This bar must measure exactly 3 in — and the bottom ruler 6 in.
If not, reprint at Scale 100% (Actual size), Fit to Page turned off.
